DETAILED ACTION

1. Claims 1-33 remain for examination. The correspondence filed 4/27/07 amended claims 1, 12, and 23.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/27/07 has been entered.

Allowable Subject Matter

3. Claims 1-33 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach wherein a first component may establish communication with a second component via a universal interface *without* the use of a common communication protocol between said first and second components. Applicant has amended the claims as per Examiner's suggestion to more clearly point out the distinction between "communication protocol" and "discovery protocol" (see the Office Action of 1/27/07, pages 2-4).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: U.S Patents 7,130,895 and 6,910,068 to Zintel et al., which disclose similar methods of establishing interfaces between components that nevertheless require at least one communication protocol in common ('895 Patent: col. 10, lines 45-51; '068 Patent: col. 9, line 64 – col. 10, line 3).
